

## NEW HAVEN ROAD'S FINANCIAL PLAN

Calls for Raising of \$60,000,000, Instead of \$65,000,000, as Previously Announced.

New York, April 23.—All details of the New York, New Haven and Hartford Railroad Company's financing were completed today at a conference between the officials of the company and the banking syndicate organized by J. P. Morgan and company.

The plan calls for the raising of \$60,000,000 instead of \$65,000,000 as announced last week. This sum will take care of all New Haven's requirements including the \$45,000,000 of notes maturing May 18 and \$5,000,000 due the latter part of July, leaving a balance which, it is thought,

will carry the road through the remainder of the year.

The \$60,000,000 will be acquired through the sale of \$20,000,000 New Haven one year five percent notes, with various securities as collateral, \$20,000,000 Harlem River and Portchester railroad one year five percent notes guaranteed by New Haven, and \$20,000,000 New England Navigation notes will be announced within a few days. It is understood that practically the entire \$60,000,000 has been underwritten most of the participants being the bankers and other financial interests which were asked to take part in the \$65,000,000 later declared illegal by the Massachusetts supreme court.

## Cleanliness Counts—BUT

it's really only the beginning of teeth preservation. You've often wondered why it is that tiny cavities scarcely bigger than a pin head appear frequently in your teeth. And this in spite of the fact that your teeth always look immaculately clean and white.

## Pebeco Tooth Paste

Here's the point: You have "acid-mouth." Your salivary and mouth juices are unusually acid. They "work" upon the hard outside enamel. They weaken it. A cavity appears. Had you but known the fact that Pebeco overcomes "acid-mouth" you could easily have preserved your teeth free from cavities.
